EX PARTE

PRESENTATION

DOCKET FILE COPY ORIGINAL

Re: Implementation of the Pay Telephone Reclassification and
Compensation Provisions of the Telecommunications Act of
1996, CC Docket No. 96-128

Dear Mr. Caton:

On behalf of the American Public Communications Council ("APCC"), we are updating certain information provided in APCC's Consolidated Application for Review of the CEI Orders, filed May 15, 1997 ("Application").

APCC's Application for Review contends, among other things, that NYNEX has not complied with the Payphone Orders¹ requirement that local exchange carriers ("LECs") file federal tariffs for unbundled features and functions provided to payphone service providers ("PSPs"). Application at 12-14. APCC's argument is based on ex parte letters in which NYNEX indicated that it would federally tariff only the following features: line side answer supervision, direct dial screening, operator number screening, and terminating number screening. See Letter to William F. Caton from Alan S. Cort, Director, Federal Regulatory Matters, NYNEX, April 10, 1997 ("April 10 Letter"). See also Letter to William F. Caton, Acting Secretary, FCC, from Alan S. Cort, March 19, 1997 ("March 19 Letter"). NYNEX' letters further indicated that direct dial screening and operator number screening are unavailable in New York. *Id.*, Attachment A at 6

¹ Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Docket No. 96-128, Notice of Proposed Rulemaking, 11 FCC Rcd 6716 (1996), Report and Order, FCC 96-388, released September 20, 1996 ("Payphone Order"), Order on Reconsideration, FCC 96-439, released November 8, 1996 ("Reconsideration Order").

William F. Caton
June 27, 1997
Page 2

("operator number screening not available in New York - direct dialed screening not available in New York").

Based on NYNEX' March 19 and April 10 Letters, APCC inferred that NYNEX did not intend to federally tariff any of the various blocking and screening features (except terminating number screening) that are available on an unbundled basis in NYNEX' New York tariff. These include Outward Call Screening ("OCS"), pay-per-call blocking, and Limited InterLATA Dialing. See Letter to William F. Caton from Alan S. Cort, March 20, 1997 ("March 20 Letter") Attachment B at 1.² Although the Outward Call Screening feature offered in the New York tariff is the same service as Operator Number Screening (March 20 Letter, Attachment B at 4), NYNEX's omission of New York from the list of states where the Operator Number Screening service it intended to federally tariff was currently available (April 10 Letter at 2) led APCC to conclude that NYNEX would not allow New York payphone service providers ("PSPs") to order Operator Number Screening from NYNEX' federal tariff. For all these reasons, APCC contended that NYNEX has violated the federal tariffing requirement.

On May 19, 1997, NYNEX filed a federal tariff for the four services identified in its April 10 Letter. See Attachment 2. The federally tariffed service that corresponds to "operator number screening" is named "PAL Operator Screening." The federal tariff does not indicate that PAL Operator Screening is unavailable in New York. Therefore, it appears that, contrary to the implication of NYNEX' March 19 and April 10 Letters, New York PSPs, as well as New England PSPs, will be able to order operator screening from the federal tariff.³ However, because the tariff also states that "PAL Operator Screening is available where facilities permit" (Tariff F.C.C. No. 1, § 13.3.11(c)), NYNEX should be required to clarify whether PAL Operator Screening is in fact available to New York subscribers at the federally tariffed rate.

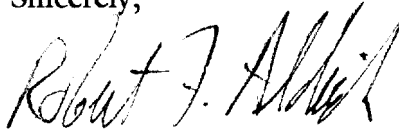

² See also P.S.C. No. 900, § 3.E.2.a. (describing the Outward Call Screening feature available in New York). This tariff provision was included in Exhibit 6 to APCC's Application, and is also attached to this letter. See Attachment 1.

³ The result will be a savings of \$2.25 per line per month. In NYNEX' New York tariff, Outward Call Screening is priced at \$2.25 per line per month -- the difference between the rate for "Basic Public Access Line" ("BPAL") (\$15.47) and the rate for "Basic Public Access Line ("BPAL"), with Outward Call Screening ("OCS")" (\$17.72). In the federal tariff, PAL Operator Screening is priced at 0.

William F. Caton
June 27, 1997
Page 3

Even though operator screening is now available to New York PSPs from NYNEX's federal tariff, NYNEX has still not fully complied with the federal tariffing requirement. As noted, two other unbundled payphone service features -- pay-per-call blocking and limited interLATA dialing -- are offered on an unbundled basis in NYNEX' New York tariffs, but are not included in NYNEX' proposed federal tariff. Pay-per-call blocking is offered as "Enhanced BPAL," for an additional charge of \$.41 per line per month. See P.S.C. No. 900, §§ 3.E.2.a. and 3.E.4. Limited interLATA dialing is offered as "LIDPAL" for an additional charge of \$2.08 per line per month. NYNEX must be required to federally tariff these features as well.

Sincerely,

Robert F. Aldrich

PUBLIC TELEPHONE SERVICES

(C)

E. PUBLIC ACCESS LINES

1. General

Public Access Lines (PAL) are voice grade individual business exchange lines which provide exchange access from the subscriber's premises to the Company's central office facilities for the purpose of connecting COCOTS (as defined in E.3.a. following) to the Company's network.

(C)

1

(D)

2. Types of PALs and Feature Descriptions

(C)

a. Basic Public Access Lines

(T)

Basic Public Access Lines (BPAL) are measured service lines arranged for either two way (incoming and outgoing) calling or one way (outgoing) calling.

(D)

(D)

Lines may also be arranged for Outward Call Screening where facilities permit. This feature is designed to prevent a PAL user from obtaining service through an operator when such service is billed to the calling number. An Automatic Number Identification (ANI) code is transmitted to alert operator and carrier systems that the call is originating from a Public Access Line and may require special handling and billing treatment. However, if an interexchange carrier's facilities are not compatible with the Company's signalling arrangements, directly dialed interLATA calls may be blocked by the carrier.

Incoming service on BPAL may also be equipped with Billed Number Screening. This optional feature is designed to permit operator systems to disallow incoming collect and third number calls to the BPAL line when such calls originate within the continental United States and when such calls are processed through the national data base known as Billing Validation Application (BVA).

In addition to the features described above, Enhanced BPAL blocks access to central office prefixes 394, 540, 550, 910, 920 and 970 and the service access codes 700 and 900. No other blocking options are available for Enhanced BPAL.

PUBLIC TELEPHONE SERVICES

E. PUBLIC ACCESS LINES (Cont'd)

2. Types of PALs and Feature Descriptions (Cont'd)

b. Limited InterLATA Dialing Public Access Lines

Limited InterLATA Dialing Public Access Line (LIDPAL) is a class of service, where interLATA calling is limited to 0+ calling through the carrier's presubscribed operator service provider (if equipped). Casually dialed interLATA calls, where 10XXX precedes the traditional dialing pattern to identify the carrier of choice, will also be limited to 0+ interLATA calling (10XXX + 0+ area code and seven digit telephone number). LIDPAL offers PAL subscribers a vehicle for allowing interLATA 10XXX access while minimizing exposure to fraud.

This service includes Outward Call Screening, International Direct Distance Dialing (011) Blocking, and Blocking Option 4 features (see Section 2, paragraph Q.) and will be provided in equal access and adjunct equipped central offices where facilities permit. Billed Number Screening, as described in E.2.a. preceding, is an option available to LIDPAL.

As an alternative, the customer may subscribe to Enhanced LIDPAL which provides all the features of LIDPAL except that, in lieu of Blocking Option 4, it provides for blocking access to central office prefixes 394, 540, 550, 910, 920 and 970 and the service access codes 700 and 900. No other blocking options are available for Enhanced LIDPAL.

(A) Limited InterLATA Dialing (LID) is provided through business Public Access Lines to Customer Owned Coin Operated Telephones, or to other registered telephone terminal equipment when not accessed by Customer Owned Coin Operated Telephones.

(B) Limited InterLATA Dialing is provided as a one or two way measured class of service.

(C) The Limited InterLATA Dialing class of service will be provided in 1ESS/1AESS, 5ESS, and DMS100, and in 5XBAR central offices having equal access capability derived through adjunct equipment where facilities permit.

--

(C)

c. Coin Compatible Public Access Line

(T)

FURNISHED ONLY TO PRESENT SUBSCRIBERS TO THIS SERVICE ON THE SAME PREMISES. NEW INSTALLATIONS ARE NOT PERMITTED.

(N)

(N)

CCPAL service is available in 5ESS and DMS 100 central offices where facilities permit, including recording and billing capability for local band "A" call usage.

To the extent feasible, CCPAL is meant to have the same features as standard New York Telephone "Dial Tone First" (DTF) coin lines. Following is a summary of the CCPAL standard features:

(T)

(A) Two way measured service - This feature permits both outgoing and incoming service. Calls are timed and rated for initial and overtime periods according to standard New York Telephone rate schedules.

(T)

(B) Dial Tone First (DTF) - DTF enables customers to dial certain calls without requiring coin deposits, e.g. "911 Emergency Service."

(T)

(C) Outward Call Screening (OCS) - OCS transmits an Automatic Number Identification (ANI) code to alert operator and carrier systems that the call is originating from a CCPAL station and may require special handling and billing treatment.

(T)

(D) Billed Number Screening (BNS) - BNS is designed to permit operator systems to disallow incoming collect and bill to third number calls when such calls originate within the continental United States and when such calls are processed through the national data base known as Billing Validation Application (BVA).

(T)

(E) Coin Rating for CCPAL is at the standard rates for coin lines pursuant to Tariffs PSC No. 901, 902 and A2 - Telephone.

(T)

(F) Automated Local Coin Overtime (Pre-Pay) - This feature provides for standard overtime charging on band "A" calls after the initial period.

(T)

(G) Coin Signalling (Coin Collect and Coin Return) - Coin signalling is used to control the disposition of the coins held in the station. Coin collect is used when a call has been completed and coin return is used if a no answer or busy condition is encountered.

(T)

(H) Standard Recorded Announcements - Utilizes announcements regarding rating and timing of sent-paid calls.

E. PUBLIC ACCESS LINES (Cont'd)

2. Types of PALs and Feature Descriptions (Cont'd)

(C)

c. Coin Compatible Public Access Line (Cont'd)

(T)

(I) Coin Return of Initial Deposit On Cash Calls Beyond Band "A" - New York Telephone has an initial band "A" coin rate. For all calls beyond band "A" a coin return signal for the initial deposit is sent and the full initial rate is requested by a standard recorded announcement.

(T)

(J) Operator System Coin Control - New York Telephone operator system can handle 0-, 0+ and 1+ dialing from coin stations. At present, Sent-Paid InterLATA calls from CCPAL, if permitted, will be forwarded to AT&T. In the future, other carriers will be providing sent-paid interLATA service. Special billing/coin sharing arrangements between the CCPAL subscribers and their respective carriers will be necessary.

(T)

(K) DTF:coin lines include blocking of IntraLATA central office prefixes 394, 540, 550 and 970 and the 700 and 900 service access codes. The 976 central office prefix is not blocked and the Company's standard coin line band "A" rate of twenty-five cents (25¢) is charged to the coin user. The CCPAL subscriber will be billed the standard business rate for these 976 calls.

(T)

PUBLIC TELEPHONE SERVICES

(C)

E. PUBLIC ACCESS LINES (Cont'd)

2. Types of PALs and Feature Descriptions (Cont'd)

(C)

d. Line Side Answer Supervision

(T)

Line Side Answer Supervision (LSAS) optional feature provides "off-hook" supervisory signals to customer premises equipment of the Public Telephone Service subscriber when the called party answers the call. When a called party on-hook at the end of a call is detected, the reverse battery is returned to normal indicating that the called party has disconnected from the call. The LSAS feature will permit improved accuracy of COCOT timing of sent paid calls.

3. Regulations

(T)

a. Customer-owned Coin Operated Telephones (COCOTs) are F.C.C. registered coin-activated telephone sets or coin-activated equipment provided through F.C.C. registered protective circuitry and used by any Payphone Provider. COCOTs may be connected to the Company's network only through Public Telephone Services (as defined in NOTE preceding).

(T)

(C)

b. Customer-owned coinless and other telephones, such as credit-card reader telephones, may also be connected to PAL lines at the option of the subscriber.

(T)

c. Coin, coinless and combination coin and coinless telephones may be connected only to PAL Individual line business message rate service.

(T)

(C)

(D)

d. Usage rates and charges for local and toll message usage and all other regulations governing business individual access lines apply to PAL access lines.

(T)

e. PAL subscribers are liable for all usage and monthly charges incurred on PAL access lines.

(T)

f. PAL lines terminate in Company-provided jacks or interfaces.

(T)

g. The Maintenance Service Charge applies as described in Section 1 of this tariff.

(T)

h. Regulations and rates applicable to the End User Common Line charge for multiline business service as provided in Tariff F.C.C. 1 apply to PAL access lines.

(T)

(C)

i. PAL access lines and PAL optional features are furnished subject to the availability of facilities.

(T)

j. Other optional features for PAL access lines such as Touch-Tone and Custom Calling Services are furnished at existing tariff rates and charges for business service, subject to the availability of facilities. Custom Calling Services are not available for CCPAL.

(T)

k. There is no charge to Customer Owned Coin Operated Telephones for local and intraLATA Directory Assistance calls.

(T)

PUBLIC TELEPHONE SERVICES

(C)

E. PUBLIC ACCESS LINES (Cont'd)

3. Regulations (Cont'd)

(T)

- l. Public Access Line(s) (PALs) are subject to disconnection, by written order of the Public Service Commission (PSC) staff to the Company, for failure to comply with PSC's Part 650 regulations. The PSC staff will direct the Company to suspend a PAL service when a Customer Owned Coin Operated Telephone (COCOT) has been found to be in non-compliance with PSC regulations. If the violation is corrected during the period allowed by the PSC, the Company will be directed to restore service. A Service Connection Charge, a Line or Port Change Charge and a reduced monthly charge for Temporary Suspension will apply as specified in Section 14 of this tariff. If the violation has not been corrected during the prescribed period, the Company will be directed to disconnect the PAL service. During the suspension period, the Company will only install a new PAL service at the affected site for a different and unaffiliated COCOT subscriber. (T)
- m. The initial request for CCPAL in a central office entity will require a 30 day interval to establish service. Subsequent requests will be completed at normal intervals.
- n. Flexible Pricing (T)
 - (A) Public Access Line equivalent link rates may be decreased, selectively and in varying amounts, so long as the rates cover their relevant costs. (T)
 - (B) Public Access Line equivalent link rates may be increased selectively in varying amounts not to exceed 5% per year. (T)
 - (C) The Company reserves the right to change rates as described in (A) and (B) preceding at any time upon 10 days' notice to the Public Service Commission by providing a revised rate schedule and appropriate cost support. (T)
 - (D) Changes in Public Access Line rates will be effective coincident with the subscribers bill date following the effective date of the change. (T)
 - (E) A rate will not be changed unless it has been in effect for at least 30 days. (T)
 - (F) Appropriate customer notification of Public Access Line rate changes will be made. (T)
 - (G) Public Access Line rates may be changed in accordance with the provisions of (A) through (F) preceding on a wire center by wire center basis in any wire center area where a certified local exchange carrier has established a presence. (T)

(T)

The following apply to rates and charges on the preceding page:

- £ The amount in parenthesis () represents the equivalent line amount that will be reduced from the full service line amount when a customer utilizes the corresponding port rate from Section 25. The full service line amount applies except in those wire centers where the Company exercises the Flexible Pricing Option. A Rate Schedule for such wire centers will be issued in accordance with Paragraph E.3.n.(C) of this Section 3. (T)
- Service Connection Charges for business service apply, as specified in Section 14 of this tariff. Moves or additions are subject to existing tariff rates and charges for business service.
- # A Record Order Charge applies to the addition of the BNS feature subsequent to connection of the line.
- (1) Non-recurring charges do not apply to a change from existing BPAL, BPAL with OCS or LIDPAL service to Enhanced BPAL, Enhanced BPAL with OCS or Enhanced LIDPAL service if ordered within 60 days of the effective date of this tariff revision.
- ** Service Charges will apply as specified in Section 14 of this tariff.
- ## NOTE: Effective January 1, 1995, a 25¢ surcharge applies, per access line in accordance with Chapters 561 and 730 of the Laws of 1994 and pursuant to Order of the Public Service Commission dated January 23, 1995 in Case 95-C-0007.

PUBLIC TELEPHONE SERVICES

G. PUBLIC ACCESS SmartLine SERVICE

1. General

Public Access SmartLine (PASL) Service is comprised of individual measured business exchange lines with coin or coinless functionality offered to Payphone Providers (PPs) for the purpose of accessing measured services and features provided by the Company. PASLs are furnished from suitably equipped central offices, subject to the availability of facilities.

Four types of PASLs are available to PPs. Certain standard features apply to each depending on the service option selected. For details concerning the four PASL options and the standard features applicable to each, see 4. following.

2. Features

- Automated Local Coin Overtime
- Billed Number Screening (BNS)
- Blocking Service Option 4 (except intraLATA central office prefix 976)
- Coin Return of Initial Deposit on Cash Calls Beyond the Local Calling Area
- Coin Signalling (Coin Collect and Coin Return)
- Dial Tone First (DTF)
- Directory Assistance (DA)
- International Direct Dialed (011) Blocking (IDDB)
- Operator System Coin Control
- Outward Call Screening (OCS)
- Standard Recorded Announcements

(N)

3. Feature Descriptions

Automated Local Coin Overtime (Pre-Pay) - provides for standard overtime charging on local calls after the initial period.

Billed Number Screening (BNS) - permits operator systems to disallow incoming collect and bill to third number calls when such calls originate within the continental United States and when such calls are processed through the national data base known as Billing Validation Application (BVA).

Blocking Service Option 4 - see Section 2, Paragraph Q. of this tariff.

Coin Return of Initial Deposit on Cash Calls Beyond the Local Calling Area - transmits a coin return signal for the initial deposit on all calls beyond the local calling area and the full initial rate is requested by a standard recorded announcement.

Coin Signalling (Coin Collect and Coin Return) - controls the disposition of the coins held in the Basic Coin Access Line station, i.e., coin collect is used when a call has been completed and coin return is used if a no answer or busy condition is encountered.

Dial Tone First (DTF) - enables customers to dial certain calls without requiring coin deposits, e.g., "911" Emergency Service.

Directory Assistance - see Section 9, Paragraph C. of this tariff.

PUBLIC TELEPHONE SERVICES

G. PUBLIC ACCESS SmartLine SERVICE (Cont'd)

3. Feature Descriptions (Cont'd)

International Direct Dialed (011) Blocking - provides blocking of international directly dialed calls while allowing for completion of directly dialed domestic calls.

Operator System Coin Control - provides control of 0-, 0+ and 1+ dialing from BCAL stations. Sent-paid interLATA calls from BCAL 1 and 2 stations, if permitted by the Presubscribed Interexchange Carrier (PIC), will be forwarded to the customer's designated PIC.

Outward Call Screening - transmits an Automatic Number Identification (ANI) code to alert operator and carrier systems that the call is originating from a BCAL station and may require special handling and billing treatment.

Standard Recorded Announcements - utilizes announcements regarding rating and timing of sent-paid calls.

4. PASL Options

One-Way Basic Coin Access Line (BCAL 1)

BCAL 1 is a standard DTF coin line which provides only outgoing service with Blocking Service Option 4, BNS, OCS, IDDB and DA.

Two-Way Basic Coin Access Line (BCAL 2)

BCAL 2 is a standard DTF coin line which provides outgoing and incoming service with Blocking Service Option 4, BNS, OCS, IDDB and DA. (N)

Inmate Public Access Line (Inmate)

Inmate service is a coinless line which provides only outgoing service on an operator assisted collect call basis with OCS and BNS; DA is not provided. Equal access (10XXX) dialing is not permitted.

Charge-A-Call Public Access Line (Charge-A-Call)

Charge-A-Call service is a coinless line which provides only outgoing service on an authorized credit/calling card basis with OCS, BNS and DA. One-Plus (1+) dialing (except 800 and 555) is not permitted.

5. Coin Timing and Rating Applicable to Users of Payphones Connected to BCALs 1 and 2

a. Local calls are timed and rated as follows:

Type of Call*	Initial Period or Fraction Thereof	Overtime Period or Fraction Thereof
Home Region	3	2
Region-to-Region	1	1
Band A	3	2

b. Toll calls are timed and rated based on the initial period of one minute or fraction thereof and each overtime period of one minute or fraction thereof.

* For definitions and rates, see Tariff P.S.C. Nos. 901, 902 and A2--Telephone.

PUBLIC TELEPHONE SERVICES

G. PUBLIC ACCESS SmartLine SERVICE (Cont'd)

6. Regulations

1. Customer-owned Coin Operated Telephones (COCOTs) are F.C.C. registered coin-activated telephone sets or coin-activated equipment provided through F.C.C. registered protective circuitry and used by any Payphone Provider. COCOTs may be connected to the Company's network only through Public Telephone Services (as defined in NOTE preceding).
- a. Customer-owned coinless and other telephones, such as credit-card reader telephones, may also be connected to PASLs at the option of the subscriber.
- b. Coin, coinless and combination coin and coinless telephones may be connected only to PASL individual line business message rate service.
- c. PASL subscribers are liable for all monthly rates and usage charges incurred on PASLs.
- d. Usage rates and charges for local and toll message usage and all other regulations governing business individual access lines apply to PASLs.
- e. Regulations and rates applicable to the End User Common Line charge for multiline business service as specified in Tariff F.C.C. No. 1 apply to PASLs. (N)
- f. With Blocking Service Option 4, calls to the 976 central office prefix are permitted and standard rates will apply. The PP will be billed the standard business rate for 976 calls.
- g. PASLs terminate in Company-provided jacks or interfaces.
- h. The Maintenance Service Charge applies as specified in Section 1 of this tariff.
- i. Other optional features for PASLs such as TOUCH-TONE Calling Service, are furnished subject to the availability of facilities and at existing tariff rates and charges for business service specified in Section 6, Paragraph B.1.c. of this tariff. Custom Calling Services are not available to PASLs.
- j. There is no charge to Customer Owned Coin Operated Telephones for local and IntraLATA Directory Assistance calls.
- k. The initial request for a PASL in a central office entity will require a 30-day interval to establish service. Subsequent requests for PASLs will be completed at normal intervals.

Issued: December 31, 1996

Effective: April 1, 1997

By Sandra Dilorio Thorn, General Attorney
1095 Avenue of the Americas, New York, N.Y. 10036

PUBLIC TELEPHONE SERVICES

G. PUBLIC ACCESS SmartLine SERVICE (Cont'd)

6. Regulations (Cont'd)

m. PASLs are subject to disconnection for failure to comply with the Public Service Commission's (PSC) Part 650 regulations, by written order of the PSC staff to the Company. The PSC staff will direct the Company to suspend a PASL service when a PP has been found to be in non-compliance with PSC regulations.

If the violation is corrected during the period allowed by the PSC, the Company will be directed to restore service. A Service Charge, a Line or Port Change Charge and reduced monthly charge for Temporary Suspension of service will apply as specified in Sections 14 and 15 of this tariff.

If the violation has not been corrected during the prescribed period, the Company will be directed to disconnect the PASL service. During the suspension period, the Company will only connect a new PASL service at the affected site for a different and unaffiliated PP subscriber.

n. Flexible Pricing

- (A) PASL equivalent link rates may be decreased selectively and in varying amounts so long as the rates cover their relevant costs. (N)
- (B) PASL equivalent link rates may be increased selectively and in varying amounts not to exceed 5% per year.
- (C) The Company reserves the right to change rates as described in (A) and (B) preceding at any time upon 10 days' notice to the Public Service Commission by providing a revised rate schedule and appropriate cost support.
- (D) Changes in PASL rates will be effective coincident with the subscriber's bill date following the effective date of the change.
- (E) A rate will not be changed unless it has been in effect for at least 30 days.
- (F) Appropriate customer notification of PASL rate changes will be made.
- (G) PASL rates may be changed in accordance with the provisions of (A) through (F) preceding on a wire center by wire center basis in any wire center area where a certified local exchange carrier has established a presence.

PUBLIC TELEPHONE SERVICES

G. PUBLIC ACCESS SmartLine SERVICE (Cont'd)

7. Rates and Charges

	<u>Monthly Rate * . #</u>	<u>Noq-Recurring Charge</u>
a. BCAL1, each <i>way</i> Measured Rate	\$24.85 (10.46)	£
b. BCAL 2, each Measured Rate	23.72 (10.46)	£
c. Inmate Service, each Measured Rate	22.93 (10.46)	£
d. Charge-A-Call Service, each Measured Rate	22.93 (10.46)	£

(N)

- * Effective January 1, 1995, a 25¢ surcharge applies, per access line, in accordance with Chapter 561 and 730 of the Laws of 1994 and pursuant to Order of the Public Service Commission dated January 23, 1995 in Case 95-C-0007.
- # The amount in parenthesis () represents the equivalent link amount that will be reduced from the full service line amount when a customer utilizes the corresponding port rate from Section 25. The full service line amount applies except in those wire centers where the Company exercises the Flexible Pricing Option. A Rate Schedule for such wire centers will be issued in accordance with paragraph G.7. n.(C) of this section.
- £ Service Connection Charges for business service apply as specified in Section 14 of this tariff. Moves or additions are subject to existing tariff rates and charges for business service.

Transmittal No. 452

Secretary
Federal Communications Commission
Washington, D.C. 20554

ATTENTION: Common Carrier Bureau

The accompanying tariff filing, issued by the NYNEX Telephone Companies (NTCs), and bearing Tariff F.C.C. No. 1, effective June 3, 1997, is sent to you for filing in compliance with the requirements of the Communications Act of 1934, as amended. This filing consists of tariff pages as indicated on the following check sheets:

<u>Tariff F.C.C. No.</u>	<u>Check Sheet No.</u>
1	483rd Revised Page 1 59th Revised Page 8 97th Revised Page 13

This filing is issued in compliance with the Federal Communications Commission's Report and Order In the Matter of Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Docket No. 96-128, FCC 96-388, released September 20, 1996 and modified by the Order on Reconsideration, FCC 96-439, released November 8, 1996 and the Order in DA 97-805, released April 15, 1997.

With this filing, the NTCs are introducing unbundled pay telephone features and functions in compliance with the aforementioned orders.

Supporting information as required under Section 61.49 of the Commission's Rules is included with this filing.

Acknowledgement and date of receipt of this filing are requested. A duplicate letter of transmittal is attached for this purpose.

Pursuant to Section 61.32(b), the original of this transmittal letter (without attachments), together with FCC Form 159 and the statutory fee payment in the amount of \$600.00, as required by Section 1.1107 of the Commission's Rules, is being sent via same-day commercial courier service for delivery to the Mellon Bank in Pittsburgh, PA, on May 19, 1997. Copies of the transmittal letter, together with attachments being filed pursuant to Section 61.32(a) and (c), will be filed by hand on May 19, 1997.

Questions on the payment or inquiries, comments and petitions regarding this filing should be addressed to the Executive Director - Federal Regulatory Matters at the above address.

J. J. Goldberg *(JMG)*
